Net Wt. 250 lbs.
(114 kg.)

Pasture Ranger

Guaranteed Analysis

Crude Protein	Minimum 13.50%
Crude Fat	Minimum 7.00%
Crude Fiber	Maximum 5.50%
Calcium (Ca)	Minimum 2.00% - Maximum 2.50%
Phosphorus (P)	Minimum 1.10%
Salt (NaCl)	Minimum 7.00% - Maximum 8.50%
Sodium (Na)	Minimum 3.00% - Maximum 4.20%
Magnesium (Mg)	Minimum 2.25%
Potassium (K)	Minimum 0.35%
Sulfur (S)	Minimum 0.50%
Copper (Cu)	Minimum 600 ppm
Selenium (Se)	Minimum 4.75 ppm - Maximum 5.25 ppm
Zinc (Zn)	Minimum 1,200 ppm
Manganese (Mn)	Minimum 750 ppm
Cobalt (Co)	Minimum 4.0 ppm
Iodine (I)	Minimum 8.0 ppm
Vitamin A	Minimum 100,000 IU/lb.
Vitamin D	Minimum 20,000 IU/lb.
Vitamin E	Minimum 80 IU/lb.
Alpha-Amylase (from Aspergillus oryzae).....	Minimum 3,393 ug starch hydrolyzed/min/oz.
Amyloglucosidase (from Aspergillus niger, Aspergillus oryzae).....	Minimum 513 ug maltose hydrolyzed/min/oz.

Ingredients: Corn Distillers Dried Grains with Solubles, Corn Condensed Distillers Solubles, Salt, Diatomaceous Earth (*Diatomaceous Earth used as a binder*), Magnesium Oxide, Calcium Carbonate, Mono-Calcium Phosphate, Canola Oil, Sodium Bicarbonate, Yeast Culture, Zinc Sulfate, Manganese Sulfate, Copper Sulfate, Zinc Polysaccharide Complex, Zinc Proteinate, Manganese Polysaccharide Complex, Manganese Proteinate, Copper Polysaccharide Complex, Copper Proteinate, Dried Aspergillus Oryzae Fermentation Extract, Liquid Aspergillus Niger Fermentation Product, Cobalt Carbonate, Sodium Selenate, Ethylenediamine Dihydriodide, Vitamin A Acetate (Stability Improved), Vitamin D3 Supplement, Vitamin E Supplement.

Zinc, Manganese and Copper are 50% organically complexed.

Does Not Contain Any Animal Protein

Pasture Ranger

SweetPro[®] Pasture Ranger tubs are designed for essential fortification of Yearling and Cow requirements for vitamins A, D & E, plus protein, calcium, phosphorus and trace elements including selenium. Pasture Ranger is designed to be used on wheat pasture and alfalfa. Daily intake will vary depending on forage quality and nutritional needs.

Feeding Instructions:

1. Before Feeding SweetPro[®] Pasture Ranger tubs for the first time, animals should be well fed.
2. Provide access for animals to have plenty of clean, fresh water at all times.
3. Have one lick block available for each 25 head of beef or dairy cattle.
4. Provide an adequate source of good quality roughage and forage at all times (all they can consume).
5. Place tubs near water sources or areas cattle frequent regularly.
6. Make blocks available in more than one location in large pastures or where more than one water source is available.
7. Other salt and minerals may be provided free choice to balance specific needs.
8. A two week adaptation period will be required to establish a base consumption rate. After adaptation period, recommended range of intake is .75 to 1.25 lbs. per day.

The above feeding directions are general guidelines and will vary with the overall feeding conditions. Always use good management practices.

Caution!

Contains 600 ppm copper. **DO NOT FEED TO SHEEP!**
Do not use in association with another feed containing supplemental selenium.
